## Impact-Driven Product Manager | Turning Insights into Simple, Scalable Solutions

White Plains, NY USA | divyasharma230499@gmail.com | +19196856316 | <https://www.linkedin.com/in/divya234/>

---

### SUMMARY

Product-focused, impact-driven product manager with a proven record of leading roadmap execution, user research, and cross-functional delivery. Drove feature launches that reduced manual effort by 37%, increased production adoption by 22%, and accelerated core business outcomes across biotech and enterprise SaaS. Passionate about solving complex problems and turning user insights into high-impact solutions, I am seeking product roles where I can accelerate roadmap outcomes, champion user-centric design, and scale solutions in an innovative tech environment.

---

### WORK EXPERIENCE

#### Regeneron Pharmaceuticals Inc.

##### Data Product Manager Co-op

June 2025 - December 2025

- Owned and launched a real-time Tableau dashboard for senior leadership, eliminating 2 days of manual reporting per cycle and giving instant visibility into manufacturing status - empowering data-driven decision making.
- Drove OKR and acceptance criteria adoption across 7 teams, training cross-functional members for a stronger alignment with company vision and consistently improved delivery on analytics initiatives.
- Led end-to-end software development lifecycle (SDLC) for 20+ feature upgrades in internal tools, cutting user efforts by 37% and accelerating pre-clinical manufacturing result delivery by 12%.
- Streamlined onboarding for 10+ R-shiny tools by creating digital workflows, PRDs, and user guides, reducing tool onboarding time by 33% and boosting tool adoption rate from 40% to 58%.

#### Eli Lilly Pvt Ltd

##### Technical Product Analyst

October 2023 - June 2024

- Defined requirements and led deployment of BioTuring on AWS, coordinated with ML scientists, engineers and external vendors to boost drug discovery workflow efficiency for researchers by 30%.
- Partnered with engineering to lead user requirements, stakeholder alignment, and deployment of Kubeflow on AWS, automating ML workflows and reducing model deployment time by 60%.
- Led integration of Coder on AWS, owning the feature roadmap and prioritizing enhancements to standardize dev environments, achieving a 40% boost in developer adoption and collaboration across remote teams.

#### Nutanix

##### System Reliability Engineer

January 2021 - October 2023

- Initiated and executed product enhancements for Prism Central by spearheading user requirement discovery, prioritizing features from feedback, and launching solutions that increased adoption by 22% in 6 months.
  - Analyzed and resolved 600+ customer issues across Nutanix products to identify root causes, collaborating with product and engineering teams to drive feature improvements and boost customer retention by 5%.
  - Facilitated bug tracking and prioritization, cooperating with product and sales team to resolve 20 critical issues, reducing customer incident rates by 16% and improving product reliability and user trust.
- 

### ACADEMIC PROJECTS

#### Naitiv AI

##### Student Consultant - Product

August 2024 - December 2024

- Collaborated with founders to implement design thinking framework - leading empathy interviews, user journey mapping, and ideation workshops to validate problem statements, analyze pain points and user needs.
- Synthesized market research and competitive analysis to propose a MVP and recommend 3 actionable go-to-market recommendations, directly informing Naitiv AI's product positioning and strategic roadmap.

#### Ayuda NGO

##### Vice President

July 2019 - June 2020

- Led cross-functional team of 70 to design and launch an AWS-hosted food distribution application, reducing food wastage in nearby food joints by 80% in 4 months.
- 

### EDUCATION

#### Duke University

August 2024 - December 2025

Master's in Engineering Management [GPA: 3.89/4.0]

#### Vellore Institute of Technology

July 2017 - May 2021

Bachelor of Technology, Computer Science Engineering [GPA: 3.78/4.0]

---
